

Soft Boiled Eggs

NEED:

2L water

1-4 eggs at room temperature

DO:

Place water into HMP and heat until water reaches **84°C/speed 3**.

Place eggs into basket and insert into water and cook **10**

min/83°C/speed 3.

Remove basket from HMP and run under cold water.

Serve.

For hardboiled eggs increase cooking time to **18 minutes**.

Times may vary slightly depending on the size of your eggs and the temperature they are when they are placed into the water.

Placing cold eggs into the hot water will result in cracking.
